

## The Forward Leading IPA as your Social Care Network Lead

The Forward Leading IPA (FLIPA) is submitting proposals to the DOH Social Care Network (SCN) Request for Applications for both the Finger Lakes and Central New York Regions. Why should your organization support FLIPA?

**FLIPA is Experienced.** A successful SCN will need to engage partners quickly and operationalize requirements efficiently. FLIPA has the experience and expertise needed to succeed in our proposed service regions:

**FLIPA’s Proposal Creates Efficiency of Scale.** FLIPA has developed relationships and contracts across both the Finger Lakes and Central NY Regions that currently support key aspects of the SCN; universal screening for social care needs, person-centered navigation and connection to resources are part of the fabric of FLIPA. Streamlining of existing network-wide standards of care, workflows, and processes allows more funding to flow to the organizations in the communities who need it most and are doing the work of supporting individuals. The proposal to support both regions also reduces the overhead for operations, including resources for vendors, contractors, content expertise, and resources for clinical support and supervision.

For more information or to talk about partnering on this important work, reach out to Patricia McMahon, Executive Director at [pmcmahon@forwardleadingipa.org](mailto:pmcmahon@forwardleadingipa.org)
